IN THE ENERGY BUSINESS,

KNOWLEDGE IS THE REAL POWER.

The power sector is a complex industry filled with many challenges. To be successful, you need a legal advisor who understands the complexities, can help manage the risks and help you achieve your goals.

At Borden Ladner Gervais LLP (BLG), our team has over 20 years experience providing legal and strategic advice on corporate and regulatory matters, environmental, project finance, construction, M&A, and tax matters for clients across the entire energy sector.

To find out more about our Electricity Markets Group, please contact:

Linda Bertoldi | 416.367.6647 | lbertoldi@blg.com
Mark Rodger | 416.367.6190 | mrodger@blg.com
Shane Freitag | 416.367.6137 | sfreitag@blg.com

In the energy business, knowledge is the real power.

26th Annual Canadian Power Conference & Networking Centre
November 18 & 19, 2014
Metro Toronto Convention Centre
www.appro2014.com
Welcome from APPrO 2014’s Conference Chair

Dear APPrO 2014 Delegates,

On behalf of the APPrO Board and the APPrO 2014 Conference Committee, I want to welcome you to the 26th Annual Canadian Power Conference, APPrO 2014 and the APPrO 2014 Power Networking Centre.

This year, we are thrilled to present APPrO 2014 again at the Metro Toronto Convention Centre - just steps from the downtown core. Join us for this opportunity to meet and network with many of the key players across the power generation industry. Discover the latest technologies, products and services and gather valuable industry intelligence, both in the program sessions and more casually in the Power Networking Centre!

The industry's leading edge exhibitors will be on hand to provide suggestions and information on practical and economical business solutions. The APPrO Technical Conference promises to again chart a course for the latest in innovative market-ready technology and exchange of ideas. You won't want to miss what's in store!

We at APPrO are extremely proud of the fact that after more than a quarter of a century, the Canadian Power Conference and Networking Centre is still the industry's “must-attend” event. More than just a tradeshow, APPrO's Power Networking Centre has become the networking hub for the industry. From the timely content of our sessions, to the amiable and lively networking opportunities, no matter which events you attend this year, APPrO 2014 is the place to be and be seen.

We know you'll find the experience both pleasant and productive. See you on November 18 & 19 at APPrO 2014!

Yours truly,

Stephen Somerville, Conference Chair
APPrO 2014
Northlandpower.ca

For over 25 years, intelligent energy has powered Northland’s growth across Canada and beyond.

To us, intelligent energy means realizing experience-based success and growth. It means leveraging clean and green technologies. Seizing new and innovative partnering opportunities.

It means balancing a focus on growth with a commitment to excellence. Constructing and managing each facility throughout its lifecycle. And it means delivering – on time and on budget.

As we look to the future, our vision remains: to create sustainable value for customers, shareholders and communities – and a greener future for our planet.
Welcome from APPrO President & CEO

Dear APPrO 2014 Delegates,

I'd like to welcome you to the 26th Annual Canadian Power Conference and Networking Centre, APPrO 2014.

Around the world, and here in Ontario we are seeing the beginning of a fundamental transformation of the power sector.

At APPrO 2014 we bring together the entire power industry, spanning all technologies, and provide them with a place for discussion, learning, networking and development of business opportunities focused on this transformation. Be a part of that process and see your knowledge and influence grow.

APPrO 2014 will set a new standard by showcasing content that is relevant, provocative and strong, as well as more and newer opportunities to develop your business through networking and intelligence gathering.

Have a look at the following pages to get a feel for what's coming next at the Canadian Power Conference and Networking Centre.

Be at the industry’s networking hub with those who know and those who come to learn. Join us at APPrO 2014 on November 18 & 19 and be a game-changer!

Sincerely,

David Butters
APPrO President & CEO
OPG is a proud partner of many community activities and initiatives, like local sports teams, environmental projects and science fairs. We're committed to powering Ontario, and we're just as dedicated to making our communities even better places to live, work and play.

Natural Gas
for a more prosperous Ontario.

Seize the opportunity.
Message from the Trade Show Manager

Dear APPrO 2014 Participants,

Now in our 26th year of providing top notch information and networking to the power generation industry, this year the theme is appropriately “Transformation Underway”. This title is apt not just because we have an industry in transformation, but because the APPrO conference itself is also transforming to provide you with fresh content and format that reflects the industry’s current path.

The APPrO Conference Team is excited to have you join us and we are dedicated to helping you make the most out of your conference experience.

This year, along with 40+ exhibitors from the industry’s leading edge companies, APPrO will host over 1,000 key power generation professionals, from Presidents, CEO’s and Chairs to Directors and Managers from every aspect of the industry including generators, government representatives from all levels, policy and regulatory institutions, LDCs, and many more guests from Canada, the US and overseas. No matter what else is on your calendar — you’ll want to be at APPrO 2014!

I’d like to thank our loyal and generous sponsors and partners including Borden Ladner Gervais, Northland Power, Brookfield Power, Veresen, Bruce Power, Blakes, Gowlings, KPMG, Stikeman Elliott, Norton Rose Fulbright, Navigant, Torys, Electricity Today, SNL Energy, CanWEA, and a host of others, whose continued and generous support underscores the continued success of the Canadian Power Conference & Networking Centre!

Also deserving of our gratitude — our wonderful APPrO Conference Committee - with whose help we ensure that our programming is not only exciting but on target for the needs of you the Delegates and Participants.

We know you’ll enjoy what we have in store! See you at the Metro Convention Centre on November 18 & 19 for APPrO 2014!

Carole Kielly
APPrO Marketing Manager

Look for the folks with the purple badges onsite and they will be happy to help you with whatever you need.

**Borden Ladner Gervais LLP**
40 King Street West, Suite 4400
Toronto, ON M5H 3Y4
We provide specialized legal, regulatory and strategic advice on all aspects of the electricity business in Canada on behalf of generators, developers, lenders, investors, consumers, government entities and utilities.

Our experience includes providing advice in respect of their various corporate, tax and commercial matters, purchases and sales, financing arrangements and regulatory matters. We appear before various regulatory tribunals across Canada on electricity and natural gas rate cases and other regulatory issues and approvals. We have advised on all types of electricity projects including all forms of renewable and non-renewable projects, district energy projects and all aspects of project development including obtaining the necessary approvals and undertaking any required consultation with First Nations.

Our experience and dedication have resulted in BLG being ranked in the top tier of Canadian law firms in the power sector.

**Ontario Power Generation Inc.**

700 University Avenue Toronto, Ontario M5G 1X6

Ontario Power Generation produces more than half the electricity used in most homes, schools, hospitals and businesses in the province. And now with the closing of Ontario’s coal stations, the power produced by OPG is literally free of greenhouse gas emissions. We own and operate:

- 2 nuclear power stations
- 3 thermal power stations
- 65 hydroelectric power stations on 24 river systems
- 2 wind power turbines.

OPG also owns two other nuclear power stations, which are leased to Bruce Power L.P., and co-owns the Portlands Energy Centre and the Brighton Beach gas-fired generating station.

**Ontario Waterpower Association**

380 Armour Road, Suite 264 Peterborough, ON K9H 7L7

Since 2001 the Ontario Waterpower Association has been representing the common and collective interests of the waterpower industry. To date our membership
has grown to over 150 organizations. Our membership includes generators, engineering firms, environmental consultants, legal, project financing and insurance firms, Aboriginal communities and other organizations, all sharing the common interest of advancing waterpower in Ontario.

Each year the Association hosts its annual Power of Water Canada Conference. The Power of Water Canada conference and tradeshow is the largest gathering of the hydroelectric sector in Canada. Don’t miss this opportunity to meet and network with hundreds of the key contacts from within the hydroelectric sector. For more information contact:

www.saymag.com

More than just for youth – Native youth are the largest growing demographic in North America and SAY has grown over the years to include information for more than just our youth.

Consistently SAY has received feedback that the magazine and website are a RESOURCE for our people and a major source of INFORMATION on CONTEMPORARY Native issues. SAY’s mission statement is HOPE.

SAY Magazine (www.saymag.com) is the only lifestyle magazine in the world for Native people. Established in 2002, SAY publishes four regular issues, plus annual ‘Best Practices in Economic Development, Education Guide for Native Students and Back2School editions. Special publications, such as the program for 2008 NAIG, program for 2011 Manito Ahbee and annual reports are also available from SAY. Subscriptions are available for single copies, multiple (6) copies and classroom

Our Power Team
All of us, all for you

It’s remarkable what we can achieve when we work toward a common goal — yours. We align all of our national capabilities to meet your need for responsiveness, efficiency and performance. Our legal expertise in project development, financing, mergers and acquisitions, regulatory matters, restructurings, and procurements has earned us consistent recognition as a top power group in Canada. But enough about us, let’s talk about you.
kits (for educational providers at any level). Story ideas and submissions are welcome – contact info@saymag.com.

SNL Energy
SNL Energy provides in-depth company and asset-level coverage of the North American power industry. We combine diverse information sources into a cohesive, instantly accessible decision-support platform. Whether you are a strategic or financial analyst, SNL Energy’s flexible product gives you the ability to tailor information to your needs.
